

FOR IMMEDIATE RELEASE

Rocky Mountaineer Station Names Bright Ideas Official Supplier

Vancouver, July 21, 2010 – Bright Ideas Event Coordinators has been named as an official event coordination supplier to the Rocky Mountaineer Station. Bright Ideas has previously staged a number of high-profile events at the station for corporate clients.

“Our past events at this unique venue generated rave reviews, so we're delighted to offer our clients the added benefits of working with an official supplier when booking this amazing building,” says Bright Ideas CEO and President Sharon Bonner.

Located downtown, in the False Creek Flats area of Vancouver, this renovated mid-1950s locomotive maintenance building offers a classic, vintage exterior coupled with up-to-date amenities in the remodeled interior. The building was renovated by Rocky Mountaineer for use as their train station, but has also quickly become a popular choice for large gala and corporate events, charity fundraisers, weddings, concerts, festivals, markets and other private functions.

The bright and flexible 20,000 square foot space includes an exposed timber and brick interior, large glass windows, 35 ft vaulted ceilings, with metal beams and drive-in access through three overhead doors, and can host up to 1255 guests. Other amenities include more than 100 parking spaces, 15 bus bays, wheelchair accessibility, and high-speed Internet access.
